

## LOOKED INTO A BIG REVOLVER

And Then B. & O. S-W. Operator at  
Fleming Surrendered His Roll of  
Money.

## H. SPRICKERHOFF THE LOSER

Robbers Wore Red Handkerchiefs  
Over Their Faces In True  
Western Style.

Fleming had a touch of the wild  
west early this morning.

About 3:30 two highwaymen en-  
tered the B. & O. S-W. blockhouse  
there and thrusting a revolver in the  
face of the operator, H. Sprickerhoff,  
ordered him to give up his valuables.  
While one of them kept the operator  
covered with the revolver the other  
searched him and also the office. After  
securing \$35 from Sprickerhoff  
he was ordered to stand in the cor-  
ner with his face to the wall and on  
pain of death to remain there for  
fifteen minutes without trying to see  
which way the robbers went.

Sprickerhoff, not caring to take  
any chances, obeyed instructions but  
when the time was up he spread the  
alarm in the neighborhood and short-  
ly after 4 o'clock the Seymour police  
were notified to watch for men an-  
swering descriptions given. The op-  
erator stated that each of the men was  
about five and a half feet tall. Each  
weighed about 130 pounds, each wore  
a dark blue serge suit and as near as  
he could tell each man's complexion  
was dark. During the robbery the  
men wore red handkerchiefs over  
their faces up to their eyes so that  
their victim was unable to tell whether  
they were strangers.

About 7:30 this morning Marshall  
Abell found two men at the interurban  
station eating breakfast who an-  
swered the description of the robbers.  
The two men however stated that  
they had spent the night at the Com-  
mercial hotel and being taken there  
confirmed the statement and were re-  
leased.

### DIED.

COLEMAN:—Mrs. Sarah Coleman  
died Sunday morning at her home in  
Miami, O. after an illness of two  
months. She was 93 years old and  
was the last of a family of seventeen  
children. She was the daughter of  
the late John Jacobs and wife. She  
lived near Seymour seventy years  
ago.

Four children, all living in Ohio,  
survive. Mrs. Coleman was a sis-  
ter-in-law of the late Daniel Helper  
Brown and had a number of relatives  
in Jackson county.

The funeral services will be held  
Wednesday, Mrs. R. R. Short of  
Redding township, Mrs. Clara Rust  
and A. F. Robertson of Brownstown  
will leave for Miami Tuesday morn-  
ing to attend the funeral.

WETZEL:—Mrs. Sarah Wetzel,  
age 66 years and wife of E. C. Wet-  
zel, died Sunday evening at her home  
on Booth street after an illness of  
three years of gall stones.

She was born in Belmont, O. and  
moved to Seymour last fall. The  
husband and two children, Mrs. Gus  
Scharfenberger of this city and Mrs.  
James Montgomery of Sulphur  
Springs survive.

The funeral services will be held  
from the Christian church at Red-  
dington Wednesday morning at 11  
o'clock, conducted by Rev. Overman.  
Burial in the Reddington cemetery.

SPURLING:—Newton J. Spurling,  
age 68 years, one of the best known  
farmers in this county, died Monday  
morning at his home in Redding town-  
ship after an illness of several weeks  
of Bright's disease. He was born in  
Redding township and spent his life  
there and was engaged in farming.  
Five sons survive. They are Charles  
of this city, James, John, Tip and  
Carl of Redding township.

The funeral services will be held  
from the Reddington church Tuesday  
forenoon at 11 o'clock. Burial in  
the Glasson cemetery.

### OFFICERS ELECTED

At the Jackson County Sunday School  
Convention at Medora.

The Jackson County Sunday School  
Convention, held Friday and Satur-  
day at Medora, was a success  
considering the bad weather and busy  
time of the year. The first day's pro-  
gram included the appointment of  
committees and transaction of other  
business. The principal address of  
the day was made by Miss Hazel A.  
Lewis, a state Sunday School worker  
of Indianapolis. A number on the  
program for Saturday were unable to  
be present and the subjects were  
given to other able speakers present.  
At the afternoon session the follow-  
ing officers were elected:

President, James Marsh; Vice-  
President, Leonard Gillispy; Sec-  
retary-Treasurer, Miss Katie Beik-  
man; Supt. Home Department, D. W.  
White; Supt. Adult Bible Class, C. V.

## TWO ITALIANS WANTED HERE

Alleged To Have Stolen Clothing and  
Money From Fellow  
Workmen.

## THEY LEFT HERE FOR BEDFORD

Property Taken From Box Car.  
Theft Was Discovered Satur-  
day Evening.

Late Saturday evening police head-  
quarters was notified that a robbery  
had been committed in the B. & O.  
S-W. yards during the day and that  
two Italians who had left for Bedford  
were believed to be the men guilty of  
the theft.

Five Italians came here last week  
and were given work on the tracks  
under Charles Richardson, section  
foreman. They stayed in the car in  
the eastern part of the yards which  
had been fitted up for such service.  
Saturday morning two of the men  
were released and were sent to a  
foreman at Bedford by Mr. Richard-  
son. They asked for the key to the  
car in order they said to get some  
clothing they had there. That even-  
ing when the men who remained here  
quit work they went to the car and  
then made the discovery that an over-  
coat and some other clothing and \$35  
in money belonging to them had dis-  
appeared.

The police were notified and Marsh-  
all Abell telephoned to the police at  
Bedford to look for the men but no  
word has been received from there  
today.

When the Italians came here the  
middle of last week a call came to  
the police early one morning that the  
men were in a box car which was  
standing near the Greenman factory  
and they had a fire built in the car  
on the floor.

There is a suspicion with the offi-  
cers that the two Italians may have  
returned to town or not be far away  
as a local man approached the marsh-  
al this morning with an inquiry as to  
whether prosecution would be with-  
held if the stolen clothing and money  
should be returned.

### Candidates Announced.

### AGRICULTURAL TRAIN

To Arrive Here Tuesday Evening.  
Public Meeting at Night.

The agricultural educational train,  
which is being run over the B. & O.  
S-W. this week under the direction  
of the officials of that road and the  
Purdue University college of agri-  
culture, will reach Seymour Tuesday  
evening and at night a public meet-  
ing will be held in the assembly room  
at the Shields school building. The  
meeting will be of interest not only  
to farmers but others.

Railroad officials and members of  
the Purdue faculty are accompanying  
the train and it is in charge of W. W.  
Wood, the general industrial agent of  
the road. Prof. G. I. Christie, super-  
intendent of the agricultural ex-  
tension department of the university  
represents the latter. Lectures on  
better farming conditions and im-  
provement of crops are being deliver-  
ed, it being the aim to aid in bringing  
about an increase in the yield of the  
land through this section and bring  
the land up to its highest state of  
productiveness.

The topics being discussed with the  
farmers include rotation of crops,  
fertilizing the soil, and testing seed  
corn, controlling corn "smut" and  
other matters of general interest to  
farming communities.

The meeting Tuesday evening  
should be well attended. The farm-  
ers have a direct interest in what will  
be said and in the exhibitions and the  
people of Seymour, who are of course  
concerned in the prosperity of the  
farmers who are so largely the sup-  
port of the city, should also attend.

### Closing Exercise.

The closing exercises of the Sunday  
School at the First Baptist church  
yesterday were of a very interesting  
character. They were conducted by  
Mrs. J. H. Bouke and Mrs. S. H.  
Huffman. The subject was "The  
Hymns We Love." Each of the  
speakers gave interesting descrip-  
tions of the authors of some of the  
old hymns that never grow old. There  
is much pathos connected with many  
of the incidents which gave rise to  
or suggested the thought of many of  
these hymns to those who wrote them.  
What a different impression the sing-  
ing of these hymns would make if  
those who sing them could know of  
their origin.

These closing exercises are very  
suggestive and have credited much  
interest.

Next Sunday will be patriotic day  
and the exercises will be in charge of  
the pastor.

### Banquet and Entertainment.

The Cortland K. of P. lodge en-  
tertained the members and their families  
Saturday evening at their hall with a  
banquet and an excellent program of  
music, recitations and speeches, af-  
forded a delightful evening for all.  
The banquet was in the nature of a  
chicken supper and was served to 250  
people, after which the program was  
given. About twenty from here at-  
tended. The Cortland lodge is one of  
the oldest and strongest of the state.

## FINE PAINTINGS AT ART EXHIBIT

Seymour People Have An Unusual  
Opportunity To See Work of In-  
diana Artists.

## FORTY-TWO PICTURES SHOWN

Paintings By Steele, Forsyth, Stark,  
Adams and Others.—Exhibit In  
Society Hall.

It is possible that some persons do  
not fully appreciate the unusual op-  
portunity afforded the people of Sey-  
mour this week of seeing some of the  
best work of Indiana's artists. The  
state is and has been the home of  
some artists, among them Stark,  
Bundy, Adams, Steele, Forsythe  
and Ketcham, who have become well  
known in the art centers of the coun-  
try and the world by their paintings.  
There are other artists, not so widely  
known but who have produced work  
that is recognized by critics as of  
great artistic merit.

The exhibit here is termed the In-  
diana Artists' Traveling Exhibition  
and was selected and arranged under  
the direction of the Indiana Society  
of Federated Clubs, the pictures be-  
ing loaned by the artists for educa-  
tional purposes. Many of the pic-  
tures are oil paintings showing In-  
diana views especially of the pictur-  
esque Brown county country which  
has in the past few years attracted so  
many of the artists of the country.

The exhibit which was brought here  
under the auspices of the Tuesday  
Club is being given in Society hall.  
There are forty-two pictures. Some  
of the pictures are for sale and among  
the number are some which are valued  
as high as \$500.

None of the pictures are copies but  
all are the originals. The exhibit was  
for some time at the Herron Art In-  
stitute at Indianapolis, attracting  
much attention. It has appeared or  
will appear at Bluffton, Winchester,  
Connersville, Greencastle, Tipton,  
Logansport and Gary.

The artists represented at the ex-  
hibit are J. Otis Adams, Winifred  
Adams, Martinus Anderson, Gustave  
Baumann, J. E. Bundy, Randy Coats,  
Homer Davison, Maude Eggermeyer,  
William Forsythe, Frank Girardin,  
Helen Goodwin, Robert Grafton, A.  
W. Gregg, Susan Ketcham, Estelle  
Peel Izor, Emma King, Anna Newman,  
M. T. Nordyke, Mary Overbeck, Fred  
Pierce, Otto Stark, T. C. Steele, Will  
H. Stevens, Roy Trough, Clifton  
Wheeler, Lucy A. Wilson, Louise E.  
Zaring.

Women's clubs of neighboring cit-  
ies were invited by the Tuesday Club  
to visit the exhibit and numbers of  
them will take advantage of the op-  
portunity. The Charlotte Emerson  
club of Franklin was here today.

The exhibit will continue until Wed-  
nesday evening, the doors being open  
each day from 2 to 6 p. m. and after  
7 in the evening. A small charge,  
ten cents, is being made for admission  
to cover the expense of hall rent,  
light, transportation and other in-  
cidentals.

## Cast Iron

Would be just the thing for school  
shoes if it were more pliable and not  
quite so heavy. The next best thing  
is Rice & Hutchins Gun Metal out of  
which they make their school shoes,  
for both boys and girls. The re-  
peated calls and constant patronage  
of a long line of customers for this  
shoe added to the fact we never have  
a complaint from them, convinces us  
it is the shoe of shoes, let us convince  
you.

Rice & Hutchins have every facul-  
tity for making good shoes, their rep-  
utation would prevent them making  
shoddy shoes.

### ROOSEVELT CLUB

Selected Their Candidates for District  
and State Delegates.

A well attended meeting of the  
Jackson County Roosevelt Club was  
held at the city building Saturday  
night. The principal object of the  
meeting was to receive a report from  
the committee appointed at a previous  
meeting to recommend candidates for  
delegates and alternate delegates  
from Jackson township to the district  
and state conventions at which na-  
tional delegates will be selected.

The recommendations of the com-  
mittee were accepted by a vote of the  
club. The men selected were:

For delegates to the district  
convention to be held at North Ver-  
non March 25:—N. C. Rucker, Ray  
R. Keach, Fred E. Miller and James  
DeGolyer.

Alternate delegates to district con-  
vention:—John A. Goodale, Walter  
Prall, Thomas Whitson and J. P. Ahl.  
Delegates to the state convention to  
be held at Indianapolis March 26:—  
Frank Bush, J. B. Shepard, W. H.  
Burkley and O. E. Carter.

For alternate delegates to the state  
convention:—Jesse Weaver, Lafe  
Heiman, Sherman Day and Louis  
Sweeney.

If the above candidates are elected  
at the township convention to be held  
in Seymour Saturday evening, March  
23 they will in the state and district  
conventions vote for national dele-  
gates pledged to vote for Theodore  
Roosevelt for the Republican presi-  
dential nomination.

The club decided to have printed,  
tickets bearing the names of the  
Roosevelt candidates for delegates  
and headed by the words, "Roosevelt  
for president." It is expected to use  
these tickets at the convention.

Remarks were made by a number  
of those present and it was reported  
that about fifty new names from this  
township had been added to the club  
membership roll during the past week.  
It was also reported that in the out  
townships candidates for delegates  
are being placed in the field. Unless  
a special meeting is called no more  
meetings of the club will be held prior  
to the conventions.

## Heart to Heart Talks.

By EDWIN A. NYE.

### IN HALF AN HOUR.

In half an hour you can—  
Toss a pleasant joke to half a score of persons and lighten their daily task or help some youngster do his difficult sum or lift him over some barrier.

Or—  
You can hold friendly converse with some discouraged neighbor, or write a postal card to some lonely one, or mail a message of fraternal greeting.

Or—  
You can speak the little word in season to your wife or husband to shorten the weary day and bring the often smile or get in touch with the optimism of nature and give yourself an impetus for the duties of the morrow.

Or—  
You can read a page or two of Tennyson or Ruskin or Hugo or the other masters and think their thoughts and feel the beat of their emotions after them.

Or—  
You can relax your tired nerves and strong bent energies and while resting link yourself with the infinite forces that make for strength and righteousness.

All this you can do—and more—in one short half hour.  
On the other hand—  
In one half hour you can move among your fellows with "no glorious morning face" or word of cheer or you can speak the words that smart and sear and sting the heart of a friend like the cruel blow of a whiplash.

Or—  
You can write a message of meanness to one who should be dear to you and fill his hours with bitterness or with sadness, or you can withhold the smile you owe to your own and cloud the skies you should try to clear.

Or—  
You can slight the sunlight and breeze and flowers and birds and live like a stranger in your own world, or you can live without rest or relaxation from incessant labors and strain to the snapping point the delicate threads of life.

Or—  
You can read that which is only for the moment and fill your mind with mental trash or that which is vicious and fill your hours with moral filth, or you can push some fellow mortal whose feet have missed the way farther down the road to ruin.  
The half hour is yours.  
What will you do?

### SAM WELLER REVERSED.

The British postal authorities take no stock in Sam Weller's advice about bawling of widows. Instead they prefer them—as telephone operators—the hello system over there being a postal institution. Fifty per cent of the present operators, young girls, have been found to be suffering from anemia and nervous debility and this, taken with the constant demand for the training of others to fill vacancies, has brought out the official opinion that widows should be preferred. "Widows, between 30 and 40, who have been mothers, are not liable to anemia," says the report. "Their nervous systems are much steadier and besides, women who have been married would be better able to deal with fractious subscribers." Now there may be something to this last when you come to think of it, says the Pittsburgh Dispatch. Experience in managing a husband might be of service in soothing or talking back to irate subscribers. Imagine, for instance, the chill which must fall upon the most clamorous caller when he is informed with the crisp incisiveness and decision of wifely authority that the line is busy. He will recognize at once the futility of trying to argue the point and subside, to the relief of the overburdened line.

The city of Cleveland has taken a leaf from the academic notebook of Chicago and has elected a woman superintendent of schools. Miss Harriet Keeler, the new superintendent, is a woman of high literary attainment and for 38 years has been associated with school work; she must know something about education, says the Boston Globe. Miss Keeler has a hobby that she wishes to see tried out in the schools, and it will interest the people of the whole country—it is that politeness should be taught in every grade. Miss Keeler is in favor of devoting a short time in each grade to a practical illustration of politeness in every day life. This idea is so natural and yet so new that its very mention wins favor. Some pupils may have home advantages that make the

teaching of politeness unnecessary, but the great bulk of our school children could profit by such a course. Examples of correct conduct on the street, in traveling and in being thoughtful and considerate of other people's feelings will be important aids to character building.

That St. Petersburg is rapidly growing in population is evidenced by the census taken in December, 1910, which showed the population, including certain suburban villages formerly not covered, to be 1,907,708. It is presently an "office town" and also a seaport for six or eight months of the year. The principal industry is the manufacture of cotton textiles, although its advantage as a port of entry for the interior is gaining recognition. A line of steamers has been established to Libau, connecting there with a trans-Atlantic line to New York. This enables American shippers to send goods direct to this port without the delays of trans-shipment in foreign ports.

A woman in Pennsylvania has just died of an exceedingly rare disease, known as pamplugus vegeta. Luckily, she was not of sufficient prominence, apparently, to make the disease fashionable.

That Wichita lineman who was hit by a 30,000 volt electric current and lives to tell the tale should have no fears of any nominating convention where the lightning loves to loiter.

If asked to give our conception of a lazy man we should say that he is a man who will wait patiently at a revolving door for somebody else to come along and give it a whirl.

Somebody ought to put a foot down on the proposal to increase the price of shoes. Only a ballet-dancer can send shoe leather skyward without incurring popular disfavor.

There are various methods of breaking into print, but the most unique is that of the government employee who has asked to have his salary reduced.

That New Yorker who cut off his nose while shaving has cause for complaint against Santa Claus for failing to present him with a safety razor.

They are now patching human skins with egg membrane. In due time the great American hen will come rear filling every need of human life.

We can't agree with the French scientist who claims that the memory it outside the body. We think it is in the back of the head.

When a very rich man marries a very poor girl, that's romance. When a very rich girl marries a very poor man, that's fiction.

Do you observe how superior the man acts who can talk intelligently at the automobile show?

## THE FITZ FAMILY'S BAD PRISON RECORD One of Them Has Just Been Sentenced to Hang.

Jeffersonville, Ind., March 16.—Another black mark is added to the prison record of the Fritz family by the finding of guilty of murder in the first degree against John Fritz, for killing Hiram B. McWilliams, a guard at the Indiana reformatory, Nov. 21, 1911, by a Clark circuit court jury.

George Fritz, a brother, who was found guilty of a murder at Reed's station in 1901, but who was pardoned by Governor W. T. Durbin in 1904, sat beside John throughout the trial. The latter was sentenced for larceny from Reed's station in 1906. Nelson Fritz, the father, was convicted of murder at the same time George was sentenced. He escaped from prison, but was recaptured and is still at Michigan City. Another brother, William, is at the Indiana reformatory serving a larceny sentence.

George Fritz, his brother Matthew and their mother live at Denham, Ky. The sentence of death imposed on Fritz is the first case in which a death verdict has been found by a jury in the Clark circuit court since Macey Warner was found guilty of killing Frank Harris, a guard at the old state prison south. While in the Clark county jail Warner made his escape, overpowering the young brother of the sheriff, Clarence Hay, but he was found in Louisville, a husky voice betraying him, and was brought back and the death sentence carried into effect March 9, 1888.

### No Tigers in Africa.

The natives of Africa fear the leopard almost as much as they do the lion. Once in a while some traveler tells of tigers in Africa. No tigers are there, but careless writers thus misname the leopard, which has terrors of its own and is scarcely less formidable than the monarch of the Bengalese animal kingdom.

### New Criterion.

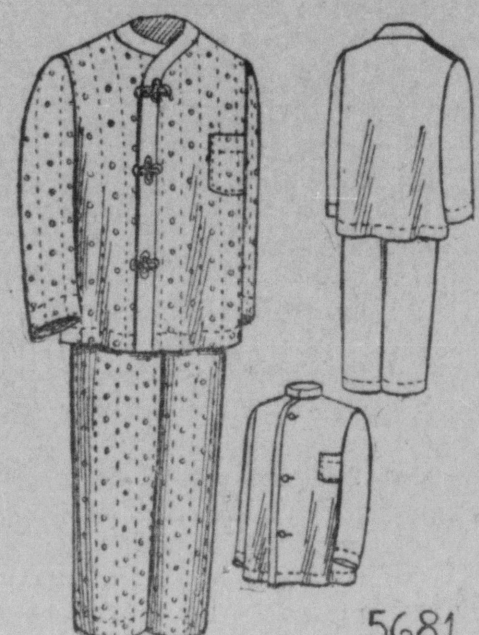

"How About Venice? Shall we stop off at Venice?" "Venice, eh? How many pages does Venice take up in the guide book?" "Eight." "In that case it must be worth a stop."—Washington Herald.

### Uncle Ezra Says

"It don't take more'n a gill uv effort to git folks into a peck of trouble" and a little neglect of constipation, biliousness, indigestion or other liver derangement will do the same. If ailing, take Dr. King's New Life Pills for quick results. Easy, safe, sure, and only 25 cents at The Andrews Drug Company.

## Practical Fashions

### BOY'S PAJAMAS.

Here is a model for a suit of pajamas for a boy. They are good looking and comfortable. The coat has high neck with standing collar or it may have low neck with stole band. Around the neck and down the front is a trimming of contrasting material or braid. Braid fastens with a pretty finish.

The pattern (5681) is cut in sizes from 4 to 16 years. To make the pajamas in the medium size will require 3 1/2 yards of 36 inch goods.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

### THIS SPRING.

If You Take Vinol Now You Will Be Strong All Summer.

"I can get along pretty well in the spring," said a feeble looking woman the other day "but the summer always pulls me down so much."

The trouble with her was that she did not know that she ought to prepare in spring to stand the summer—then she would get along all right.

Our delicious cod liver and iron remedy, Vinol, is the best spring medicine because it builds you up—makes you eat more and digest better—makes your blood rich and pure—puts healthy color in your cheeks.

Mr. P. O. Barker, of Bowen's Mill, Ga., writes, "When I was badly run down last spring, I took Vinol in an effort to regain my health and strength and it did not disappoint me. It made me feel as well as ever."

So, to all weak, pale, bloodless, run down people we say "Take Vinol this spring and be strong all summer." We guarantee Vinol to satisfy you and refund your money if it does not. The Andrews Drug Co., Seymour, Ind.

### MRS. J. C. LEONARD.

Wife of Lieut. Commander U. S. Navy, believed in Mrs. Mason's hair preparations so much that she had them sent to her all over the world. You can now obtain Mrs. Mason's Old English Shampoo Cream, 25c a tube at The Andrews Drug Co., Seymour, Ind.

### Fifty Years Ago Sunday. March 17.

General U. S. Grant arrived at Savannah, Tenn., and resumed command of the army from which he had been relieved soon after the capture of Fort Donelson, in February.

The Confederate privateer Nashville ran out of the harbor of Beaufort, N. C., in the night to escape capture by General Burnside's Federals. She had escaped from Southampton, England, where she was blockaded by the Tuscarora on Feb. 3, and reached Beaufort the 28th.

### Twenty-five Years Ago Sunday

Leonard Swett, legal associate and friend of Abraham Lincoln, appeared as counsel for the condemned anarchists in Chicago.

### Worth Mountains of Gold

is the value Mrs. Charles Barclay of Graniteville, Vt., places upon Lydia E. Pinkham's Vegetable Compound, so grateful was she for her restoration to health.

She says, "I was passing through the change of life and suffered from the effects of nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound proved worth mountains of gold to me, as it restored my health and strength, and for the sake of other suffering women I am willing to make my trouble public."

Women who are passing through this trying period should rely upon Lydia E. Pinkham's Vegetable Compound.

## SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

## For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best.

Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed.

Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request.

## BIG TENT COVERS INDIANA AUTO SHOW

INDIANAPOLIS OFFERS MOST UNIQUE MOTOR EXPOSITION WEEK OF MARCH 23 TO 30.

Thousands of Visitors From Over the State Expected to Witness Display of Million Dollars' Worth of Motor Vehicles Under One Canvas.

INDIANAPOLIS, Ind.—One of the most unique exhibitions ever planned is, to be given and exploited by the automobile manufacturers and dealers of Indianapolis, March 23 to 30, when the Indianapolis Automobile Show, sheltered under \$11,000 worth of canvas, will attract thousands of visitors from around the state of Indiana. Indianapolis will furnish a large part of the attendance, but from the smaller municipalities there will be throngs of guests who will see for the first time a "motor circus."

Barnum and Bailey in their balmy days never offered such a wealth of display as will be shown in the three most prominent thoroughfares of this city and although New York and Chicago had the advantage of the first appearance during the year, they must doff their hats to Indiana when it comes to originality.

Thousands of visitors will come to this city on specially chartered cars and trains from various Indiana cities in which motor car factories are located. Indiana manufacturers, outside of Indianapolis, have determined to send their employees to the big show and for this purpose a one and one-half rate has been granted for the round trip on all of the traction lines. Practically all of the Indianapolis and Indiana manufacturers will send all of their employees to the show and for that purpose have reserved hundreds of admission tickets.

The manufacturers realize the importance of having their employees inspect and investigate the products of their competitors and the show visits of the men who build the cars will be listed as instruction trips. Kokomo, Anderson, Muncie, Connersville, Richmond and other Indiana cities will send delegations.

### Fifty-Five Tent Guardians.

The monster tent that is to cover the million-dollar show will not be without protection. The I. A. T. A. management has employed twenty night watchmen and the Eberhardt Tent Company, from which this biggest canvas ever put together has been leased, will have thirty-five watchmen on the job all the time. These men are expert canvasmen and they will be competent to cope with the situation in the event of storm or accident.

This tent represents a value of \$11,000 and while the rental figure for the week of March 23-30 is not given out, it is said to be a pretty figure. The tent is covered by insurance, as the Eberhardt Company is not taking any chances. The canvas in this tent is new and will be used for the first time for this show and the outside of the exposition, with hundreds of great and small flags, banners and pennants, together with thousands of electric lights at night, is expected to make an unusually impressive appearance.

Only one more week remains prior to the big show and the work of erecting the big tent over Meridian, New York and Vermont streets, bordering on University park, will be started several days before the opening day, Saturday, March 23. This will be no small task.

### Both Educational and Pleasing.

Before the work of erecting the tent is begun the three streets that are to be canvas covered from curb to curb will be swept clean and scrubbed. This process will be repeated after the tent is up and then a majority of the exhibitors will spread rugs and mats over their floor space.

Everything will be immaculate and spick and span on opening day and throughout the week. The decorations will be profuse and uniform, and altogether the show management asserts that the show will compare favorably with any held anywhere in the country.

All of the exhibitors have reserved their floor space and are making extraordinary plans to offer a pleasing show.

The novel plan of the Indianapolis Automobile Trade Association has attracted the attention of motor enthusiasts throughout the country and many reservations have been made at Indianapolis hotels by dealers and promoters from the East, who desire to see just what can be done with this unique tent plan. All of the Indianapolis hotels have made special arrangements to care for the visiting crowds, so that accommodations may be obtained without difficulty.

Nothing but unfavorable weather can mar the Indianapolis Automobile Trade Association's million-dollar show, it is asserted, and the weather forecasts for the week of March 23-30 are said to be favorable. All motorists, the trade and private owners included, are pulling for favorable weather and the success of the stupendous automobile exposition, the first under one roof ever arranged for Indianapolis.

### HOLDING UP COAL

### ONLY ONE BEST

Seymour People Give Credit Where Credit Is Due.

People of Seymour who suffer with sick kidneys and bad backs want a kidney remedy that can be depended upon. The best is Doan's Kidney Pills, a medicine for the kidneys only, made from pure roots and herbs, and the one that is backed by cures in Seymour.

Read what follows:

It's convincing testimony.

Mrs. Sheridan Burge, Third and Blish Streets, Seymour, Ind., says: "I am enjoying excellent health at the present time, thanks to Doan's Kidney Pills. I was so miserable that I about gave up all hope of ever being well. Pains in my back drove me almost frantic and I could not do much work. The kidney secretions were unnatural and I lost in weight until I was but a mere shadow of my former self. I doctored faithfully and tried various remedies but not until I used Doan's Kidney Pills did I get permanent relief. This preparation proved its worth by ridding my system of kidney disease."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Two Kinds of Socialists.

The Rev. Archibald D. Pinkerton, the well-known Christian Socialist of Duluth, said in a recent address: "I asked a crusty old millionaire the other day to contribute to our book fund. He frowned and said: 'So you're a Socialist, eh?' 'Yes, sir,' said I. 'Well, tell me what a Socialist is,' said he. 'But you must tell me first,' said I, 'what sort of a Socialist you mean—a political Socialist or a Christian Socialist. For there is a vast difference. The political socialist says: 'What's yours is mine.' But the Christian Socialist says: 'What's mine is yours.'"

### The Men Who Succeed

as heads of large enterprises are men of great energy. Success today demands health. To ail is to fail. It's utter for a man to endure a weak, run-down, half-alive condition when Electric Bitters will put him right on his feet in short order. "Four bottles did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50 cents at The Andrews Drug Co.

### Sweet-Voiced Frogs.

In Japan there is a kind of frog very celebrated for his sweet voice. He is called kajiki, and people pay as much as \$19 for a pair of these marsh musicians. A poet in Japan keeps scores of singing frogs at his home, and he sometimes gives a party to his friends, when after listening to the music every guest is asked to write a poem in honor of the frogs.

### What We Never Forget

according to science, are the things associated with our early home life, such as Bucklen's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, sores, skin eruptions, cuts, sprains or bruises. ### EGGLESS FOODS.

When eggs are forty and fifty cents a dozen one feels inclined to look for dishes that call for few or no eggs. Here are a few for those of us who must economize:

**Oatmeal Cookies.**—A cup of fine oatmeal (this may be made finer by putting it through the meat grinder), a cup of flour, a half cup of lard or butter and lard mixed, a half cup of milk, two-thirds of a cup of sugar and a fourth of a teaspoonful of soda, dissolved in milk. A little grated lemon or orange peel and nutmeg, with flour enough to roll thin.

**Apple Sauce Cake.**—A half cup of shortening, a cup of sugar, a cup of sifted apple sauce, a teaspoonful of soda, one and three-fourths cups of flour, and spice to taste. Add raisins or currants if desired, and bake in small cakes or in a loaf.

**Hot Water Gingerbread.**—Dissolve in a cup of boiling water two teaspoonfuls of soda; add a cup of molasses, a quarter of a cup of melted shortening, and cinnamon, ginger, clove and nutmeg to taste. Use flour enough for a soft batter and bake in small patty tins. These are delicious with apple sauce and cottage cheese for luncheon or a dessert.

**Feather Muffins.**—Take a cup of milk, a tablespoonful of melted lard or butter, a half teaspoon of salt, a tablespoonful of sugar and two teaspoonfuls of baking powder. Mix together with flour enough to make a batter as stiff as an ordinary cake batter. Bake in muffin rings.

### NO CAUSE TO DOUBT

A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents, and 80 tablets 50 cents. Remember, you can obtain Rexall Remedies in Seymour only at our store—The Rexall Store. The Andrews Drug Co., Seymour, Ind.

### Fifty Years Ago Today. March 18.

The Confederate gunboat fleet on the Mississippi river attacked the Federals at New Madrid, Mo. They were repulsed by General Pope's land batteries and Flag Officer Foote's ironclads. The advance guard of the Federal Army of the Potomac sailed from Alexandria for the Yorktown peninsula.

### Twenty-five Years Ago Today.

Ice gorges caused a flood in the valley of the Missouri river. Mandan, Dak., was threatened with destruction.

### Many Driven From Home.

Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing. 50c and \$1.00. Trial bottle free. Guaranteed by The Andrews Drug Co.

### Holds World's Mark For Stock Car Mile

Wilcox is the holder of the world's stock car straightaway record; a mile in 40.32 seconds. He has been a driver on the Indianapolis Motor Speedway for the past three seasons and has been a winner in many of the large events. Wilcox has been declared to be one of the most spectacular drivers engaged in the hazardous sport of motor car racing and contributed largely to the large list of winnings by the National cars in 1911.

### AUTO SPEED LIMIT UP

EXPERTS DISCUSS PROSPECTS OF MOTOR CARS IN 1912 CONTEST.

Believe Entries in 500-Mile Race at Indianapolis Will Show Big Increase Over Last Year.

What is the limit of speed to be attained by the automobile, and when will that limit be reached?

Experts have endeavored for years to answer this question, and each succeeding year has brought forth a new answer until it seemed that the last word had been said, but again and again some special speed creation has upset all of the prophecies made as to speed limitations, until now the wise ones refuse to make predictions. It would seem that Bob Burman, world's speed monarch, had about solved the problem when he reeled off a dizzy mile in 25.40 seconds on the Daytona beach course, but now the intrepid Michigan boy comes out with the statement that he will accomplish the speed of three miles in a minute this coming season.

It is highly probable that human endurance is the only regulator of speed which a motor car will attain for the mile or two-mile distance, but when the speed limit of a motor car for 500 miles comes up for discussion another factor enters into consideration. Last Memorial Day, at the Indianapolis Motor Speedway, forty big motor speed marvels started out to cover the five-century distance in a contest with time and each other. Experts said that seventy miles an hour for the long grind would be wonderful speed quality, while others thought that sixty-five miles an hour would mark the limit. A few guessed that the winner might do seventy-two miles an hour, and one or two, who were said to be fanatics on the subject, estimated the average speed at seventy-four miles an hour.

Ray Harroun and Cyrus Patschke, in their Marmon "Vasp," covered the 500 miles in six hours, forty-two minutes and eight seconds, an average speed of 74.61 miles per hour. The timing was questioned, but the Warner instrument showed that it had registered truly along with a half score of the best watches, and the record went down as a part of motor-car racing history.

Now comes another chance for the experts to prophesy what will happen when thirty big cars start out again to do the half-thousand-mile route over the Indianapolis Motor Speedway track next Memorial Day. The second annual 500-mile International Sweepstakes race will be the contest which will decide just what advancement the motor-car makers have made as far as speed and endurance are concerned.

It is a remarkable condition that none of the entrants this year so far has failed to state his belief that the average speed of the race will be better than 77 or 78 miles per hour. They are building their cars to travel at this rate for the full distance and have manned them with drivers who do not fear to send the metal monsters hurtling through space at the rate of 100 miles an hour if necessary to win.

The Speedway race promoters have anticipated the increased speed by making the qualifying requirements even greater than they were for last year, every contestant who starts in the race being required to make a full lap of the two-and-a-half mile brick track in two minutes or at the rate of seventy-five miles per hour. This will not trouble those who enter, however, for they know the requirement and that they can meet it before their entries are made.

As an example Howard Wilcox, in a big blue National, has been reeling off laps at an average speed of about ninety miles per hour on the Speedway course during the biting cold winter weather, and believes he can coax more speed out of his car when the weather does not work such physical hardship upon him. Others who have been working out their cars have found that the speed requirement is easy to meet.

## Temperance

### SMALL DOSES ARE INJURIOUS

Maintained That Temperance or Self-Control Is Promoted by Total Abstinence From Alcohol.

The immediate effects of small doses of alcohol on the nervous system have only been demonstrated comparatively recently, says an English temperance publication. Prof. Victor Horsley has lectured on the action of alcohol on the brain and nervous system, and has quoted the experiments of Kraepelin, who found the reaction time (i. e., the time between observing a signal and indicating that it had been observed) distinctly diminished by alcohol although not consciously so to the person affected. These have been confirmed by Dr. Kellogg and others. Dr. Schmidt and Dr. Furer have published elaborate tables of numerous experiments on the action of alcohol upon mental operations, such as learning by heart, associations, requiring chiefly automatic movements, were at first rendered easier, yet these were soon done with increasing difficulty, while the higher associations were, from the first, enfeebled.

The increase of automatic actions is no proof of stimulation. All such actions are performed more readily when the attention is not fixed upon them. It is as would be the case were a narcotic to affect a horse and his rider, but to affect the rider first. As the grasp of the reins relaxed the horse might start off more quickly and more erratically, depending upon surrounding circumstances, because free from the check and control of his master. As the influence extended gradually to him his movements would become increasingly sluggish. The excitement of the drinker is the result of surrounding stimuli, not checked by the judgment and will, which are at once enfeebled. Hence, it is maintained that temperance, i. e., self-control, is promoted by total abstinence from drugs such as alcohol, which weakens it.

Other functions of the nervous system have been proved to be impaired by alcohol, even in small doses, such as one or two teaspoonfuls, for instance, the sensibility of touch, the acuteness of vision and hearing, and the muscular sense. In all these cases the subject is perfectly unaware of any injurious alteration, and it can only be demonstrated by sensitive and accurate tests.

It may be truly said that the devil in solution is a devil of dissolution, disease and death. The immediate effects of small doses can be shown to be injurious by precise observations, but the effect is cumulative and becomes obvious after several years of continuance.

It is this fact of unquestionable harm done by alcohol without warning to the drinker, both immediately and after years of moderate drinking, through chronic degeneration of tissues which render the advice to take it moderately so dangerous, apart altogether from the real risk of acquired craving for excess.

### DRINK HABIT IS CONDEMNED

Sir Victor Horsley, Distinguished English Medical Authority, Denounces Pernicious Custom.

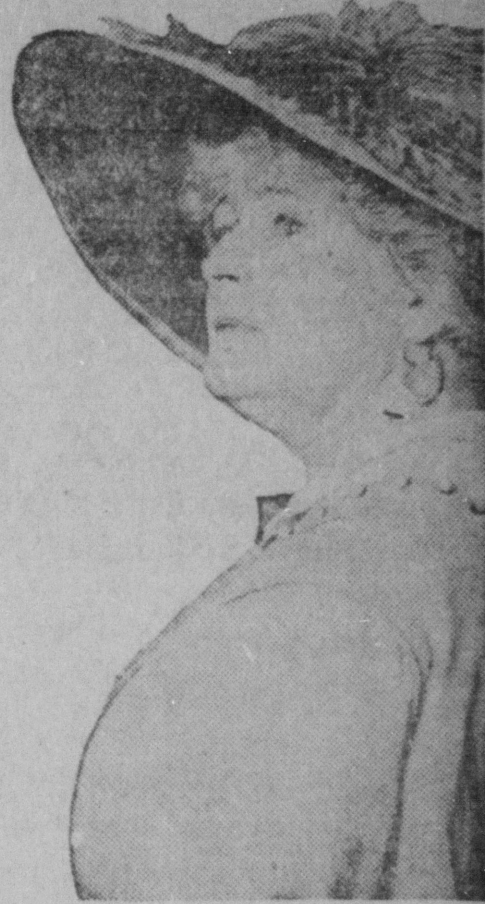

Sir Victor Horsley, the distinguished English medical authority, recently addressed in Liverpool, England, a meeting of medical practitioners and others, arranged by the United Kingdom alliance, at which the lord mayor presided.

Sir Victor's subject was "A Social Basis of Teetotalism," and in the course of his address he condemned the custom of "standing drinks" and of providing alcohol at public and private banquets and dinner parties. He recalled the fact that his late majesty the king was the first of the rulers of the British empire to break through the custom of alcoholic drinking, when he gave leave for his health to be drunk in water. Sir Victor went on to suggest that if medical practitioners were to be active and patriotic citizens, they ought all to be total abstainers, because the social reforms that were of interest today were only to be carried as soon as they succeeded in getting rid of the national custom of drinking alcohol.

The scientific view was that even small doses—what was called the dietetic use of alcohol—had an injurious effect. It acted upon the higher and most intellectual part of the brain by weakening initiation and loosening control of the judgment and the tongue. It was a common remark at dinner parties that people did not begin to talk until the wine had gone round. Mr. Justice Bargaive Deane, in his evidence before the divorce commission, had expressed the opinion that the worst evil was not the result of drunkenness, but the result of small quantities of alcohol. In a number of cases he believed that as medical practitioners they could all say the same thing of their own knowledge. The way to get the nation to give up this alcohol drinking custom was surely by securing a diminution of the opportunities of getting alcohol. The last license bill having been thrown out of the house of lords, the only other alternative—the high license system—fortunately for the community, had been carried in the budget, and local option was another method which might be applied.

### BRITISH VISITOR MUCH IMPRESSED

Countess of Warwick Admired White House Informality.

Washington, March 16.—Gowned in a brown velvet dress and wearing a triangle black straw hat with a trailing smoke-colored plume, Lady Warwick called on the president.

"What do you think of the formalities thrown about the president of the United States?" somebody asked her after the visit.

The countess's eyes opened wide. "Why, I fail to see any," she said. Then realizing that the question was asked jokingly, she laughed.

"I think it is beautiful," she said, "beautiful and wonderful."

"This,"—with a sweep of her hand she indicated the group of reporters who had stopped her in the ante-room—"never could happen in England."

"But I think it is beautiful and democratic," she went on. "Why, I suppose all America can come in freely through these doors and meet the president. Is that true? You see I am a learner, and wish to ask all the questions."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

### Indiana's Birth Rate.

Indianapolis, March 16.—Figures compiled by the state board of health for February show there were 4,053 births in the state during the month. Of these, 2,121 were boys. The state rate for the month was 18.7, with Daviess county returning the highest rate, or 35.4. Parke county, with a rate of 5.1, had the lowest.

## Display of Suits, Coats and Dresses

They Show Our Readiness for Spring

Particularly attractive and pleasing are the many changes in style featured in our new spring models of Tailored Suits.

An authoritative showing is made this week. Everything about these coats and suits has a distinctive air of newness. Fashion admits of considerable latitude in cut and trimmings. Many odd and unique ideas are brought out.

### Coats at \$5.98 to \$22.50

A large number of very desirable coats have just arrived. The range of sizes includes Women, Misses and Juniors.

These are distinctive coats. They possess the new features that will be most favored throughout the season. Storm Serges and Whip cord are prominent among them. They are practical and the prettiest designs brought out for many a season.

Serge and Silk Dresses. More than ordinary values to be found in these new spring models. Everyone just received.

### Suits at \$10.00 to \$35.00

Both cutaway and straight front models are seen in the jackets. Back slightly fitted or loose. The hipless figure is continued.

Skirts retain straight lines of former seasons, but are some wider, a welcome change to many.

We show French serges and Whip cord in great numbers; navy blue, tan and shades of gray are the most stylish for this season. The spring selling season is short so you will do well to make your choice as early as possible.

Gingham and Lingerie Dresses. An unusual assortment is shown at all popular prices.

ADVANCED SHOWING OF EARLY SPRING TAILORED HATS. We have a large assortment of tailored hats for early spring, exclusive models, and at popular prices.

What shall the platform be if Taft is defeated for renomination. Such a defeat would be considered a refusal to indorse the record of the present administration and if those who are considered the extreme progressives win it would hardly be in good taste to go before the country for the campaign simply depending on praise of the glorious achievements of the party in the distant past. Taft has striven to carry out the pledges of the last platform and the reform policies inherited from the preceding administration, so it is to be wondered if the propositions advanced by Col. Roosevelt in his Columbus speech could be considered new candidates for positions as leading issues. Whatever might be the merits of those propositions there has not been any demand from any considerable percent. of the party for their adoption, that the country has heard of.

If allowed a few days more Woodrow Wilson and managers will be able to count up enough delegates to cinch the Democratic nomination. Being a school man it is natural to expect Woodrow to count faster than the other candidates. He has already counted enough to win the nomination on the first ballot and is counting so fast that he is liable to soon have more votes than will be in the convention. Recently in some ward primaries in the state candidates have received bigger majorities than the voting population of the wards but this kind of counting would not look well for such a high brow as Woodrow.

Devotion to precedent is a good thing for President Taft but bad for Vice-President Sherman. Precedent has always given first term presidents a renomination when asked for but it has as regularly worked the other way with vice-presidents, none of them having been renominated. Mr. Sherman it is needless to say is not such a worshiper of precedent as Mr. Taft.

## S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

### UP TO THE TRUSTEE.

#### He May Decide How Long the School Term Shall Be.

Attorney General Honan has held in an opinion to Charles A. Great-house, State Superintendent of public instruction, that a township trustee is the person legally qualified to determine the length of school terms and that an advisory board may be compelled to appropriate funds therefor. When schools are consolidated by petition it is the duty of the trustee to transport children, the State official held. The trustee is given the authority to declare how much of a six-months term shall fall in the spring. Mr. Honan answered in the negative a query as to whether there may be an arbitrary apportionment of the cost of establishing and maintaining a joint high school. Mr. Greathouse asked if an addition might be made to a joint building, where the township owns one-eighth allowing the township to pay enough on the addition to give it two-fifths interest in the entire building.

### Dictograph Reveals Crime.

The dictograph, the sensitive instrument which has lent itself so marvelously to the purpose of securing evidence of crime, is described in an illustrated article in the April Popular Mechanics Magazine. The instrument comprises a most sensitive transmitter, a receiver, a small battery and as much wire as is necessary. The entire outfit can be held in one hand and not cover all the fingers. The transmitter can be placed anywhere in the room where the person whose evidence is desired will be most likely to talk.

In the Ohio bribery cases it was put under a sofa in a hotel room. In San Francisco it was placed beneath the bed in a cell of the city jail. At Toronto, Canada, where it was used in a hotel, it was placed on a table under papers. It might be hung on the wall beneath a picture or on a calendar, an ordinary pin being strong enough to hold it in place. Silk-covered wire can be run from the transmitter to whatever room the operator desires, and when connected the person holding the receiver to his ears hears distinctly every sound uttered in the room where the transmitter has been placed. Stenographers, if so equipped, can make a verbatim report of such conversations, as has been done in criminal cases.

The end of the "beef trust" trial in Chicago means to the jurymen the end of three months of the most strenuous sort of campaigning, imprisonment and deprivation any of them are likely to see. No wonder that when the defense "rested" the jury executed war whoops when they returned to their quarters. It is one of the longest trials ever held in the

Farms by freight, delta acreage by earlots, that is the latest in agriculture in Chicago where a truck farmer solved a problem by buying the sort of soil he wanted and having it shipped to him. Buying farm land at \$6 a ton is an innovation in Illinois, but Richard S. Kirchberger, a truck gardener in a suburb, determined by experiments what kind of soil he needed for growing vegetables and when he discovered that kind of soil in Louisiana, soil that the Mississippi had carried down stream during countless generations, he bought it. Next he arranged with the railroads to move that soil north again, to proximity to the appetites of a great city which he proposed to appease with green stuff grown on the delta soil. This idea of buying soil is not novel in Europe and it seems likely to be more generally adopted in this country as the land now overflowed is reclaimed and its surpassing riches made available. Edmund T. Perkins, acting president of the National Drainage Congress said Mr. Kirchberger's accomplishment showed what a vast mine of fertility lies submerged when 75,000,000 acres are now swamp which ought to be reclaimed and put to use. The river has washed down unestimated quantities of rich earth and decaying vegetable matter, he said which covers an area of 9,000,000 acres and goes to a depth of 3,000 feet over a large portion of the district. "This humus, as it is called, is of great value as fertilizer although the Chicago man is the first to use it to any large extent," said Mr. Perkins. "The only way in which this vast area of incalculably rich soil can be cultivated is by carrying out the drainage projects which are being advocated, construct levees and pump and drain the water off."

### CHAPTER IX.

#### A CHANGE OF FRONT.

HE found the task no easy one, however, although he went at it with his characteristic vigor and energy. Few men knew the seamy side of London better than John Steele—its darksome streets and foul alleys, its hovels and various habitations. And this knowledge he utilized to the best advantage, always to find that his efforts came to naught.

Reluctantly John Steele concluded that the man he sought had made his way out of London; otherwise the facilities at his command were such that he should most likely ere this have been able to attain his end—find what he desired. Soberly attired, he attracted no very marked attention in the slums, breeding spots of the criminal classes. The denizens knew John Steele. He had been there oft before.

He had on occasion assisted some of them with stern good advice or more substantial services. He was acquainted with these men and women, had perhaps a larger charity for them than most people find it expedient to cherish. One man had seen the object of Steele's solicitude, and to this person, a weakened little "undesirable," the red-headed giant had confided that London was pretty hot and he thought of decamping from it.

"After all this time that's gone," he says to me, bitter like, "to this man can't come back to 'is native 'ome without being spied on for what ought long ago to be dead and forgot!"

"What brought him to London?"

"I expect it was 'omesickness, sir. 'E's been a bad lot, but 'e has a heart, arter all. It was to see 'is mother 'e came back; the old woman drew 'im 'ere. You see, 'e had written 'er from foreign parts, but could never 'ear 'cause she had moved. Used to keep a place where a woman was found."

"Dead?"

"Murdered!" said the man. John Steele was silent. "And she, 'is mother, 'e's gone, 'aving saved a bit, out into a peaceable-like little 'amlet, where there weren't no bobbies, only

instead bits of flower gardens and bright bloomin' daffy-down-dillies. But, blime me, when Tom come and found out where she 'ad changed to if she 'adn't gone and shuffled off, and all 'e 'ad for 'is pains was the sight of a mound in the churchyard."

"Yes; she's buried," said John Steele thoughtfully, "and all she might have told about the woman who was—murdered is buried with her."

"But she did tell, sir, at the time," quickly, "of the trial."

"True." The visitor's tone changed. "If you can find Tom give him this note. You'll be well paid."

"I ain't askin' for that. You got me off easy once and gave me a lift arter I was let out."

"Well, well!" Steele made a brusque gesture. "We all need a helping hand sometimes," he said, turning away.

And that was as near as he had come to attainment of his desires.

Summer passed. Sometimes, the better to think, to plan, to keep himself girded by constant exercise, he repaired to the park, now neglected by fashion and given over to that nebulous quantity of diverse qualities called the people.

"How do you do, Steele? Just the man I wanted to see!"

Near the main exit toward which John Steele had unconsciously stepped the sound of a familiar voice and the appearance of a well known stocky form broke in with startling abruptness on the dark train of thought.

"Deep in some point of law?" went on Sir Charles. "Pon honor, believe you would have cut me. However, don't apologize; you're forgiven!"

"Most amiable of you to say so, Sir Charles," perfunctorily.

"Not at all! Especially as our meeting is quite apropos. Obligated to run up to town on a little matter of business; but, thank goodness, it's done. Never saw London more deserted. Dined at the club, nobody there. Supped at the hotel, dining room empty. Strolled up Piccadilly, not a soul to be seen. That is," he added, "no one whom one has seen before, which is the same thing. But how did you enjoy your trip to the continent?"

"It was not exactly a trip for pleasure," returned the other, with a slight accent of constraint.

"Ah, yes; so I understood. But fancy going to the continent on business! One usually goes for—which reminds me, how would you like to go back into the country with me?"

"I? It is impossible at the moment for—"

But Sir Charles seemed not to listen. "Deuced dull journey for a man to take alone, good deal of it by coach. You'll find a few salmon to kill, trout and all that. Think of the joy of whipping a stream after having been mewed up all these months in the dusty metropolis. Besides, I made a

wager with Jocelyn you wouldn't refuse a second opportunity to bask in Arcadia." He laughed. "I really couldn't presume to ask him again, is the way she expressed it, 'but if you can draw a sufficiently eloquent picture of the rural attractions of Strathorn to woo him from his beloved dusty byways you have my permission to try.'"

"Did she say that?" John Steele spoke quickly, then, "I am sorry it is impossible, but," in a low tone, "how is Miss Wray?"

SHE LOOKED AT HIM CURIOUSLY.

"Never better. Enjoying every moment. Jolly party and all that. Lord Ronsdale and— Here Sir Charles enumerated a number of people.

"Lord Ronsdale is there?"

"Yes; couldn't keep him away from Strathorn House now," he laughed.

"As a matter of fact, he has asked my permission to— There!" Sir Charles stopped, then laughed again with a little embarrassment. "I've nearly let

the cat out of the bag."

John Steele spoke no word. His face was set, immovable.

"You mean he has proposed for her hand, and she"—Steele seemed to speak with difficulty—"has consented?"

"Well, not exactly. She appears complaisant, as it were," he answered. "But, really, I shouldn't have mentioned the matter at all. Quite premature, you understand? Let's say no more about it. And—what was it you said about going back with me?"

"Yes," said John Steele, with a sud-

dened and literally charged upon the town, swept through the main thoroughfare and drew up with a flourish before the principal tavern. Sir Charles started and stretched his legs. John Steele got down.

"Strathorn House," he said to Sir Charles, "is near. I am in the mood for exercise after sitting so long and should like to walk there."

"By all means," returned the other, "since it's your preference. Pretty apt to overtake you," he went on, after giving his guest a few directions, "especially if you linger over any points of interest."

The trap which had been sent for drew up and the two men separated. Sir Charles rattled briskly down one way, Steele turned to go the other.

Soon rose before him the top of a modest steeple, then a church, within the sanctuary of whose yard old stones mingled with new. He stepped in. "Straight on across the churchyard," had been Sir Charles' direction. John Steele moved quickly down the narrow path.

Strathorn House! A noble dwelling massive and gray. And yet one that lifted itself with charming lightness from its solid, baronial-like foundation. It adorned the spot, merged into the landscape. Behind, the forest, a dark line, penciled itself against the blue horizon. Before the ancient stone pile lay a noble park.

Long the man looked. Through a faint veil of mist turret and tower quivered, strong lines of masonry vibrated. Wavering as in the spell of an optical illusion, the structure might have seemed but a figment of imagination or one of those fanciful castles sung by the Elizabethan brotherhood of poets. Did the image occur to John Steele? Did he feel for the time, despite other disquieting, extraneous thoughts, the subtle enchantment of the scene? The minutes passed. He did not move.

"You find it to your liking?" A voice, fresh, gay, interrupted. With a great start, he turned.

Jocelyn Wray, for it was she, laughed; so absorbed had he been, he had not heard her light footstep on the grass behind.

His face changing, "Entirely!" he managed to say. And then, "I did not know you were near."

"No? But I could see that. Confess," with accent a little derisory, "I startled you."

She looked at him curiously. "Shall we walk on toward the house? I went down into the town thinking to meet my uncle," she explained, "but as I had a few errands, on account of a children's fete we are planning, reached the tavern after he had gone."

She stepped into the path leading from the churchyard; it was narrow, and she walked before him.

"The others went hunting," she said.

She stepped quickly from the by-way into the main road. "There it is," she said, pointing with a small white finger.

He moved now at her side. At the entrance, broad, imposing, she paused. A thousand perfumes seemed wafted from the garden; the rustling of myriad wings fell on the senses like faint cadences of music.

Within the stately house, near a recessed window at the front, a man stood at that moment reading a letter:

Shall be down to see you soon. Case coming on; links nearly all complete. Involve a new and bewildering possibility. Have discovered the purpose of S's visit to the continent. It was—

Lord Ronsdale perused the words expectantly.

"So that was it," he said to himself slowly. "I might have known!"

Voices without caught his attention; he glanced quickly through the window. Jocelyn Wray and John Steele were walking up the marble steps.

### PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KIDNEY REMEDY.

I feel it my duty to furnish you with my testimonials as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble.

Some years ago I was not able to do any work and could only just creep around and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work; some and when I had used \$5.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would not take \$10,000 for the good that it did me. I consider it a God-send to suffering humanity for the diseases for which you recommend it and have recommended it to many sufferers.

## CELEBRATION OF OUR CENTENNIAL

Indiana In Line for Suitable Exposition In 1916.

### NOW TALKING OVER THE PLANS

Civic Improvement Commission of the Indianapolis Commercial Club Submits a Proposition Looking to a Proper Observance of the Hundredth Anniversary of Indiana's Admission to Statehood.

Indianapolis, March 16.—The Commercial club's civic improvement commission is discussing plans for an elaborate celebration of the centennial of Indiana statehood, and it is probable that in April a conference of the presidents of the state boards and state societies will be called to form a preliminary organization to the end of holding an exposition in 1916, which may continue for two or three months. The subject was brought before the commission by Dr. Frank B. Wynn, chairman, and was discussed by a number of enthusiastic speakers.

It is not the purpose of the commission to have the Commercial club take the initiative in the organization of the celebration, but to join with the Indiana state boards of agriculture, education, charities and others by giving them such help as they may desire from Indianapolis.

The state board of agriculture has long had in mind such a celebration to display the farming and live stock resources of the state, and, because of the acreage available, also to make it a great show of manufacturing resources. But the plans as contemplated by the civic commission go much further than this. Dr. Wynn, State Librarian D. C. Brown and others spoke in favor of making the state's educational resources one of the dominating notes of the exposition and said that the fine arts and other forms of Hoosier activity should have due prominence. Mr. Brown spoke of the proposed state educational building, which the coming legislature will be asked to erect, and said that it would afford a place for spreading a very extensive exhibition of the state's educational work. A portion of the building might be utilized for fine arts displays, he said.

### ENDED IN DEATH

Teamsters Have a Fatal Fight Over a Garbage Can.

Anderson, Ind., March 16.—A fight over a can of garbage has resulted in the death of Theodore Eckel, aged thirty-eight, and a charge of murder being filed against Guy Harmon, aged nineteen. Eckel died without regaining consciousness after being hit on the forehead with a shovel by Harmon in an alley at the rear of the Grand hotel.

There were no witnesses to the tragedy and Harmon's story is the only information the police have concerning the fatal fight. Harmon and Eckel were drivers of garbage wagons and each claimed the right to collect garbage from the Grand hotel. A fight followed.

### FIXED FOR SHORTAGE

Indiana Railroads Apparently Expecting Coal Mine Strike.

Indianapolis, March 16.—The expected strike of union coal miners on April 1 will not catch the larger Indianapolis industries unprepared, as for the last two or three months the heavy users of coal have been making arrangements to meet such a contingency as a suspension of coal production, and have been storing coal. It is estimated in railway circles here and also among some of the industries, that about a two-month supply of coal is already in the possession of most of the bigger plants and the coal companies in Indianapolis. The railroads are also prepared.

### CORN SPECIAL

Purdue Will Operate Lecture Train in Northern Indiana.

Lafayette, Ind., March 16.—Arrangements have been completed for the holding of corn improvement lectures along the line of the Baltimore & Ohio railroad in northern Indiana April 2 and 3. The road has consented to furnish the Purdue agricultural extension department with a special lecture train. This will give the farmers along the B. & O. an opportunity to hear the best-known experts of the Purdue soils and crops department tell "how to grow more and better corn" in Indiana.

Knox's First Paying Oil Well. Hazleton, Ind., March 16.—An oil well expected to produce fifty barrels a day has been brought in on the Perry Cunningham farm, eight miles west of here. It is the first profitable well drilled in Knox county.

His Prank Cost Him Dear. Anderson, Ind., March 16.—For sounding a false fire alarm as a prank on the fire department, Orval Denning, aged twenty, of Muncie, has been committed to jail in this city to lay out fines aggregating \$130.

### PART OF WRECK

Twentieth Century Flyer Resting on the Ice in the Hudson River.

## THE LIMIT OF SPEED OR WHEEL PRESSURE

Has Been Reached On Present Day Rails.

New York, March 16.—Three inspectors for the interstate commerce commission began an investigation of the wreck of the Twentieth Century limited from Chicago to New York, five cars of which went over an embankment into the Hudson river five miles north of Poughkeepsie, injuring twenty-six persons.

The broken rail that caused the wreck has demonstrated, according to government inspectors, the truth of their claim made some time ago that the limit of speed or wheel pressure has been reached and probably surpassed on rails of the usual width and shape of head.

### AN INNOVATION

Ambitious Frenchman Pushes His Campaign in an Aeroplane.

Paris, March 16.—Vedrine, the aviator, who is making a flying campaign for membership in the chamber of deputies, is the conundrum of French politics. He is disputing the seat at Limoux with Dujardin Beaumetz, the former head of the art department, and had a peculiar experience there. When the aviator began to speak he was greeted with a shower of apples and rotten eggs. This up-to-date politician was equal to the occasion, and, mounting his monoplane, escaped to another village.

### Aeroplane Won the Day.

The aeroplane seemed to mesmerize everybody, and Vedrine was followed by a horde of sympathizers, including the lame, blind and children. He was compelled to return to Limoux like a victorious general. He alighted in the market place and was enthusiastically received, while Beaumetz, who had arrived in the meantime, was obliged to flee amid roars of "Go down the line with the 'Mona Lisa.'" The women menaced the former custodian of the Louvre, and only the prompt arrival of the police saved him from injury. Meanwhile Vedrine was seated in his monoplane receiving the embraces of the women, while the men cheered heartily.

### BIG JEWEL THEFT

Window Washer Gets \$35,000 Worth of Loot in a New York Home.

New York, March 16.—George E. Dadmun of 47 East Fifty-third street, has told the police at headquarters that some \$35,000 worth of his wife's and daughter's jewels were missing. Mrs. Dadmun, as she went out on Thursday afternoon, told the butler that the windows needed cleaning and suggested that he get a man to do the job. When she came back she found a man at work on the second floor polishing the windows that opened into her bedroom. The butler told her an hour later that the man had gone. When she opened her jewel case last night she found that the jewelry was missing.

### Why Wiley Gave Up.

Washington, March 16.—Dr. Harvey W. Wiley has resigned as chief chemist and pure food specialist of the department of agriculture after twenty-nine years of service for the government, because he feels that his hands are tied in the fight for the enforcement of the pure food law.

### Caught Under the Cars.

Terre Haute, Ind., March 16.—Frank Ball, Vandalla switchman, was killed under a cut of cars in the yards. He served ten years in the regular army and was a member of the famous Ninth Infantry in the war with Spain. He left a widow and two children.

## GREAT MAY DAY STRIKE IN SIGHT

English Workmen May Follow Action of Miners.

### LABOR LEADERS TALK IT OVER

Any Attempt on the Part of the Government by Legislative Enactment to Restrict the Workmen's Right to Strike Would Be Followed, It Is Said, by the Greatest Industrial Disturbance in the History of the World.

London, March 18.—The question of a general strike of all labor unions in Great Britain in May, which it is claimed will develop into the greatest industrial disturbance ever known, is certainly being discussed by the labor leaders, but no decision has been reached. The threat is apparently prompted by the fear that an attempt is contemplated to restrict or remove the workmen's right to strike by repealing the trade disputes act of 1906 and introducing compulsory arbitration. Any such attempt, says Mr. Appleton, secretary of the General Federation of Trades Unions, will be met by action which will put such a proposal out of court for the next generation.

The striking miners held many meetings in various parts of the country Sunday and the keynote of the speeches made by the leaders was a determination to secure the utmost advantage out of the situation. They were especially emphatic in declaring that the miners would not agree to compulsory arbitration of disputes, which it is reported will be one of the provisions of the proposed government bill in regard to the minimum wage scale.

The speakers also declared that the miners must take a ballot as to whether they approve the government bill before a resumption of work will be ordered.

#### Not Anxious For Strike.

New York, March 18.—The coal operators do not appear to be worrying over the presumptive suspension of work in the anthracite districts on April 1. E. E. Loomis, vice president of the Lackawanna railroad, said: "I would not undertake to predict whether or not there will be a strike at this time, but I know that the rank and file of the mine workers are not anxious for a strike."

#### FOUND NO CLUE

Detectives Unable to Locate Man Who Sent Bomb to Judge.

New York, March 18.—Hard work on the part of detectives scattered about the town in search of the sender of the bomb that came through the mail to Judge Otto A. Rosalsky in his apartments on Saturday evening, did little more than strengthen the police theory that the man that sent the bomb was the same that mailed the bomb that killed Grace Walker, and that they now have to deal with a maniac who may send bombs to other persons.

Inspector Owen Eagon of the bureau of combustibles went to the hospital to have his wounds dressed. The index finger of his left hand was blown off by the explosion, and his face marked in six places by the parts of the water pipe that flew through the judge's library when the inspector put his knife into a corner of the package that held the bomb.

#### "Champ" Well Received.

Cleveland, O., March 18.—Johnny Kilbane, featherweight champion of the world, came home Sunday. He received the biggest welcome ever accorded a notable in Cleveland, a crowd estimated at between 150,000 and 200,000 strong greeting him at the union station when his train pulled in, and lining the streets over which the parade passed. He was champion, and Irish, and this was enough to cause the monster St. Patrick's day crowd to cheer him to the echo.

#### Robbers Use Guns.

Butte, Mont., March 18.—After holding up several saloons, two robbers encountered resistance in one, and George Reed, one of the robbers, was shot and wounded and Mike Casey, watchman at a nearby mine, was shot and killed by the robbers. Reed was captured when he went to a hospital to have his wound dressed.

#### GEORGE W. MELVILLE

Old Retired Naval Officer Is Dead at Home in Philadelphia.

#### OLD ADMIRAL DEAD

George Melville, Famous as Naval Hero and Arctic Explorer.

Philadelphia, March 18.—Famous as a hero of the civil war, Arctic explorer, scientist and student of naval affairs, Rear Admiral George W. Melville, retired, died Sunday morning at his residence here. Although he suffered an attack of heart failure about a month ago, he recovered, though he was left in a weakened condition, owing to his age. A week ago he visited Washington on official business and seemed to be improved. Last Friday night he suffered a stroke of paralysis, and soon sank into a comatose condition, from which he never rallied. Funeral services will be held on Wednesday.

Rear Admiral George Wallace Melville's name has always been associated with the De Long expedition, which came to grief in an effort to find the northeast passage in the supposed polar sea in the Arctic in 1881. It was he, then an engineer in the navy, who headed a division of the shipwrecked explorers after the ship, the Jeannette, had been crushed by the ice, and finally brought them to safety on the Lena delta.

## KNOX HAD NO TROUBLE IN CENTRAL AMERICA

All Such Reports False, Says Secretary of State

Guatemala, March 18.—In honor of Secretary of State Knox and the other members of his party, President Cabrera of Guatemala gave a dinner Saturday night. Mr. Knox in a speech warned Guatemala that the United States will insist upon the faithful observation of the Washington conventions which provide for the peace and stability of the Central American republics through no meddling by foreign powers and the neutrality of the various states.

President Cabrera, in an interview with the correspondents who are accompanying Mr. Knox, declared that Guatemala was the best friend of the United States in Central America and would welcome the introduction of American capital. Secretary Knox and party left for Porto Barrios, whence they sailed last night for Venezuela. Mr. Knox said:

"Rumors of unpleasant incidents connected with my visit in Nicaragua are uniformly false. As in all of the countries that I have visited, so there my reception by the president, by all branches of the government and by the people was most cordial and no unpleasant incident occurred to mar it."

#### PUSHING THINGS

Mexican Rebels Prepare For Active Campaign in the North.

Juarez, March 18.—Four hundred rebel soldiers commanded by Colonel Pascual Orozco, father of the leader and commander of all Mexican rebels heretofore styled Vasquitas, reached Juarez Sunday from Chihuahua. The soldiers are sent to carry out plans of the rebel chief to conduct an active campaign against the federalists said to be gathering east and west of Juarez to assault and retake the town.

Not a word has come over the wires from Chihuahua relative to the fate of Pancho Villa, reported as captured by the rebels in a battle and ordered executed.

#### Prison For Suffragettes.

London, March 18.—Ten of the suffragettes who were committed for trial on a charge of smashing windows during the woman's suffrage demonstration on March 1, were sentenced to terms ranging from four to six months in prison.

#### Swallowed Ounce of Poison.

Rochester, Ind., March 18.—John Lough, sixty-three years old, committed suicide by swallowing an ounce of poison. Fear of insanity is believed the cause of his act.

## AN INTERESTING MOUNTAIN HUNT

Detectives Surrounding the Virginia Outlaws.

### NO QUARTER IS EXPECTED

Mountaineer Against Mountaineer, the Detectives Know the Trails of the Smokies as Well as Do the Outlaws Themselves, and Expect to Be Able Eventually to Pick Off the Outlaws One at a Time.

Hillsville, Va., March 18.—With the exception of the two who were arrested on the day of the Carroll county court murders, when the judge, prosecuting attorney, sheriff, court clerk, a juror and a young woman witness were slain, the Allens are still free and very much alive. The outlaws, with their followers, still are safely hidden near Devil Den, on the east of the Blue Ridge range. After careful scouting on the part of the mountaineer detectives and the posse of deputy sheriffs, it was acknowledged that the murderers and their supporters could remain in the thickly wooded mountains indefinitely and that their capture, dead or alive, is likely to be accomplished only by patient and tedious efforts.

Yet the outlaws are still moving about with extraordinary daring. Instead of remaining in their stronghold on the crest of the mountain near the North Carolina line, the Allens, led by Sid, dropped down out of the mountain cover, and it is said visited the house of Jack Allen, in the Fancy Gap region. Later Sid Edwards, a member of the gang, showed up in the open. A posse of fourteen detectives struck his trail in the foothills. Jack Allen, at whose home the outlaws met, is a brother of Floyd and Sid. He has the reputation of being the most dangerous Allen of the lot.

The detectives heard that this meeting of the Allens at Jack's was a conference for the purpose of determining a plan of action. This conference is supposed to have been going on at the very moment that the posse was advancing on Sid Allen's home, only to find it deserted. If the posse had continued on to Jack Allen's a few miles further up the mountain, they would have stumbled on the gang. The reports which came in from the mountaineers that Sidna Allen had been captured and that his wife had been killed, proved erroneous. Detectives who went to the Allen home found it deserted. Floyd Allen, left wounded after the courtroom fight; Victor Allen and Byrd Marion, all charged with murder in the first degree, were spirited out of town and taken to Roanoke for safekeeping.

The detectives are as familiar with the mountains as the Allens themselves. It is a case of mountaineer against mountaineer, and for this reason alone no pitched battle is looked for. The detectives will continue cautiously on their quest if possible, picking off one member of the gang at a time. There was talk of the states of Virginia, Tennessee and North Carolina co-operating by throwing a militia guard about the Devil's Den region, but this would be an enormous undertaking and would probably be resented by many mountaineers not followers of the Allen family.

The civil officers of the state are moving to cripple the Allens in another way. It was announced that damage suits would immediately be filed by the executors of the estates of the persons who lost their lives in the courtroom shooting. They will each sue for \$10,000. Besides these suits will be brought against the Allens by six or eight persons who have been wounded.

#### Says He Will Kill Himself.

Roanoke, Va., March 18.—Floyd Allen, Victor Allen and Bud Marion, who arrived here under strong guard Sunday morning, are in the Roanoke jail, each in a separate cell. Floyd Allen is under guard, the authorities fearing he might attempt to take his life. He stood the trip splendidly and is recovering from his wounds rapidly. Floyd asserts he will kill himself at the first opportunity.

#### AVERTED LYNCHING

New York Girl's Assailant Hurried to Jail Just in Time.

Poughkeepsie, N. Y., March 18.—Attacked by a farm hand while walking to her home at Van Wagener station after attending Sunday school, Miss Elsa Hartje, eighteen years old, daughter of Jacob Hartje, a prominent farmer, is in a serious condition. Her assailant, Walter Davis, thirty-two years old, was lodged in the county jail here after being rescued from a posse of angry farmers, who were bent upon lynching him. The prisoner was hurried to a cell.

## RIOTOUS SCENES ARE ENACTED IN A CHURCH

Forty Policemen Required to Quell Parish Row.

Cleveland, O., March 18.—During a riot that continued for more than an hour Sunday scores were ejected from St. Michael's church and arrested. Children were trampled under foot by yelling men and women, who sought to drown out the reading of a letter by Father Paulus, the pastor, from Bishop Farrelly, condemning the communicants for a previous riot. Forty policemen answered the riot call and the mass could not be resumed until the rioters had been taken out, fighting and screaming, and the police had surrounded the altar, remaining there during the rest of the service. As a result of the trouble the parish is practically under martial rule by the police and a guard surrounds the rectory, the doors of which have been supplied with heavy chains to prevent a possible attack.

The trouble started with the appointment of Father Paulus to the parish. A dozen were arrested the Sunday before for rioting.
